Problem statement

- ▶ Butterfly enthusiasts and collectors struggle to **showcase their collections professionally and accessibly**.
- ▶ Traditional methods like **physical albums or local exhibitions** limit visibility and reach.
- ▶ Without a structured **digital portfolio**, presenting butterfly collections effectively is difficult.
- ▶ A **wider audience** (nature lovers, researchers, educators, and hobbyists) cannot be reached through offline methods alone.

Project overview

- ▶ **Digital butterfly collection portfolio** to showcase different species of butterflies.
- ▶ **Main idea:** Highlight the **beauty, diversity, and uniqueness** of butterflies through a well-structured digital platform.
- ▶ **Goal:** 🌍 Connect with **nature enthusiasts, researchers, educators, and collectors** who value the study and appreciation of butterflies.

Project overview

Project content:

- ▶ **About Me** - introduction and passion for butterfly collection
- ▶ **Profile** - interests, knowledge, and specialization in butterflies
- ▶ **Projects** - digital gallery of butterfly species with images and descriptions
- ▶ **Contact Me** - connect and collaborate with like-minded people

Who are the end users?

-  **Nature Enthusiasts** - People who admire butterflies for their beauty and symbolism.
-  **Researchers & Biologists** - Scholars studying butterfly species, habitats, and biodiversity.
-  **Students & Educators** - Learners and teachers who use butterfly collections for academic purposes.
-  **Artists & Designers** - Creatives inspired by butterfly patterns, colors, and forms.
-  **Collectors & Hobbyists** - Individuals who maintain butterfly collections as a hobby or passion.
-  **General Audience** - Anyone interested in exploring and appreciating butterflies digitally.

Tools and techniques used

- ▶ **HTML5** - for structuring the portfolio pages
- ▶ **CSS3** - for styling, layouts, and visual design
- ▶ **JavaScript** - for interactivity and dynamic features
- ▶ **Bootstrap / Tailwind CSS** - for responsive and modern UI design
- ▶ **Canva / Photoshop / Figma** - for creating and editing visuals, icons, and layouts
- ▶ **GitHub** - for version control and project hosting
- ▶ **VS Code** - as the main code editor

Portfolio design and layout

- ▶ **Home Page** - Title of the portfolio, tagline, and a butterfly-themed background.
- ▶ **About Me** - Introduction, passion for butterfly collection, and purpose of the portfolio.
- ▶ **Collection Gallery** - Digital showcase of butterfly species with images, names, and short descriptions.
- ▶ **Skills & Knowledge** - Information about identification, classification, and conservation awareness.
- ▶ **Projects / Research** - Any studies, findings, or creative words related to butterflies.
- ▶ **Contact Section** - Simple form with name, email, message for collaboration or queries.
- ▶ **Footer** - Links to GitHub, email, or social platforms.

Features and functionality

- ▶ **Interactive Home Page** - Attractive butterfly-themed header with tagline.
- ▶ **Image Gallery** - Showcase of butterfly species with names and descriptions.
- ▶ **Responsive Design** - Works smoothly on desktop, tablet, and mobile devices.
- ▶ **Navigation Menu** - Easy access to Home, About, Projects, Skills, and Contact.
- ▶ **Search & Filter Option** - Quickly find butterflies by name, color, or type (optional enhancement).
- ▶ **About Me Section** - Personal introduction and passion for butterfly collection.
- ▶ **Contact Form** - Users can send queries (Name, Email, Message).
- ▶ **Footer Section** - Links to GitHub, email, or social platforms.
